PATENT ATTORNEYS • TRADE MARK ATTORNEYS

TOPICS COVERED

Joining J A Kemp's in-house experts will be Shaun Stapleton, Head of Regulatory Affairs at ReNeuron, who will be discussing issues concerning orphan drugs

Overview

- Tips for maximising IP for pharmaceuticals
- Extending patent life by building a comprehensive portfolio: how to identify new IP during clinical development
- Using trade marks as a tool for extending protection

SPCs and Patent Term Extensions

- How to ensure your IP portfolio is ready for marketing authorisation
- Tips to maximise the potential for Supplementary Protection Certificates / Patent Term Extensions around the world

Polymorphs

- Best practice for drafting and prosecuting defensible patent applications
- Review of Patent Office attitudes around the world

Litigation in Europe

- Dispute resolution and the process of enforcement of patents

Orphan Drugs

- Review of current data exclusivity rules in major jurisdictions
- Discussion of requirements for securing orphan drug status and the market exclusivity benefits which can therefore be achieved
