

Jakob Broman

Trainee Patent Attorney

Jakob joined J A Kemp as a trainee patent attorney in 2019 and is based in the firm's London office.

Jakob studied at the University of Cambridge for a Masters degree in Mechanical Engineering and Aerospace and Aerothermal Engineering, gaining knowledge in a wide range of areas including aerodynamics, thermodynamics, computational fluid dynamics, material science and vibrational mechanics. His final year research project focused on simulation of photon transport in a nuclear reactor.

Jakob organised the highly respected summer research programme Research Academy for Young Scientists in Sweden two years in a row. Jakob also spent two summers doing an internship in hydraulics focusing on the impact of viscosity in hydraulic systems. Jakob is fluent in Swedish.

Services & Specialisms

Engineering, Patents, Patent Drafting, Filing and Prosecution, Invention Discovery

Location

London

Education

University of Cambridge, Master of Engineering (MEng) in 'Mechanical Engineering' and 'Aerospace and Aerothermal Engineering'

Membership of Professional Bodies

Student member of the Chartered Institute of Patent Attorneys (CIPA)
